October 5 - 7, 2022
via Zoom

2ND ANNUAL GRADUATE RESEARCH SYMPOSIUM

Theme: Innovative Research on Sustainable Development
in a Resource Abundant Economy

Call for Abstracts

Deadline: Thursday, June 30, 2022

The central theme "Innovative Research on Sustainable Development in a Resource Abundant Economy" underscores the importance of scientific inquiry into processes and procedures required to attain sustainable development - a widely recognized goal for human society of the 21st century, given its focus on the three interconnected pillars: ecological sustainability, social sustainability, and economic sustainability, together with good governance and effective institutions.

The symposium will offer interdisciplinary plenary lectures, oral and poster presentations on specialized topics under the following sub-themes:

1. Food Production and Food Security
2. Environmental management, Biodiversity and Ecosystem Services
3. Public Health and Equitable Human Development
4. Migration, Violence, Suicide, Poverty and Resilience
5. Education for Sustainable Development in the 21st Century
